

The third series of Awards, which will now be titled The Marina Industry Awards 2019, for the supply side of the marina industry will encompass five distinct categories each with two complementary products. Entries in 2019 will be chosen for their innovation, practicality and usefulness to marina operators decided by an independent panel of judges.

One entry in each category will be awarded with a Trophy for First Prize and there will also be a framed Citation for the runner-up – recipients will be chosen from either or both of the two products in each category.

**Please tick those categories you wish to enter and return form to:
